Current Objective

Seeking a challenging internship with a prospective organization to learn and capitalize on my technical skills related to the field of computers such as computer programming and information technology (IT).

PROGRAMMING LANGUAGES

I am currently studying and learning the following programming languages:

- SQL
- C
- Java
- HTML + CSS + JS
- Machine Learning

EXPERIENCE

Cinema 4D Modeling| Freelance

2013 to 2017

I completed Cinema 4D lighting, rendering, and effective positioning during my younger years primarily with free asset, interacting with the scene structure, lighting, posing, rendering, and publication of my work.

Linux Based Servers| Freelance

2014 to 2020

I ran Linux based community servers primarily for personal entertainment, all the while learning skills and dealing with Java based and Linux based crashes and issues. While not well versed in Java software yet, it served as a stepping-stone for my interest in programming.

SOFT SKILLS

Willingness to Learn and Problem solve while experiencing new things. I won't shy away from new Technology and will instead embrace its potential to improve the efficiency and proficiency of the tasks given to me.

I am a hard worker and a fast learner, as evidenced by my previous self-taught experiences.

HARD SKILLS

Photoshop Experience

Video Editing Experience

Cinema 4D Experience

Proficient in Office Suite

Programming Experience

Experience with Documentation and Professional Deployment

Experience Dealing with Clients in Business

EDUCATION

Ekamai International
2020 June
Medicine Focused

3.7 GPA

University of Nottingham
2021 September - Current
Bachelor of Science with Honours Computer Science with Artificial Intelligence

LANGUAGES

●●●●●●● ENGLISH

●●○○○○○ Hindi, Thai

Qualifications
